Shri Sant Gajanan Maharaj College of Engineering Shegaon

Department of Electronics and Telecommunication Engineering

PPTs: https://shorturl.at/biIBu

Course Title & Course Code: Cryptography and Network Security (7ETC01)

Class: Final year (4U2)

Semester: VII th

Name of the Course Teacher: Mr. T.P.Marode

Title of the innovative practice: Power Point Presentation

Objectives/Goals of the practice:

The primary goal of this innovative teaching practice is:

1. To boosts education with visual aids, interactive learning, structured content, accessibility, and support for diverse learning styles..

2. Engage students and encourage them to participate actively in learning.

Use of Appropriate Methods:

To achieve the stated goals, the following methods were implemented:

- PowerPoint become a medium for creating immersive virtual simulations, allowing students to interact with the material in a unique way.
- PowerPoint's features like multimedia, clickable buttons, hyperlinks, and scenarios are which transform the classrooms into vibrant learning environments, thus promoting active participation and genuine student engagement.

Effective Presentation:

1. Link was shared with all students
2. Short activities were conducted to assess student understanding

Photo of the activity

PO's & PSO's Mapped:

PO1, PO2, PO3, PO5, PO12, PSO2

Reflective Critique:

The link of ***Power Point Presentatios*** was shared with other faculty members.

Mrs. K. S. Vyas suggested to add Real time designs of few Applications

Mr. Amit Dolas suggested to provide comparison of various ciphers.

Evidences of success:

*Increased Student Engagement :100% of students have gone through the PPTS and actively participated in Class***.**

Challenges faced during implementation:

--None
