Sample case study of the innovative practices followed for the subject Entrepreneurship & Project Management and during the academic year 2024-25 is presented

Case Study-I:

Course Title & Course Code: Entrepreneurship & Project Management (8IT03)

Class: Final Year / **Semester:** VIII

Name of the Course Teacher: Prof. S. S. Muddalkar

Title of the Innovative Practice: Case Study-Based Learning Approach

Objectives/ Goals of the Practice:

- Enhance Practical Understanding in Entrepreneurship and Project Management
- To bridge the gap between theoretical concepts and real-world entrepreneurial practices
- To foster critical thinking, problem-solving, decision-making, and an entrepreneurial mindset amongst the students.

Methodology:

- Step 1: Brief orientation on case study-based learning and expectations.
- Step 2: Students were assigned with relevant entrepreneurial ventures or project cases (startups, local businesses, social entrepreneurship, tech ventures, etc.) for the study.
- Step 3: Structured template for report submission provided (problem statement, strategy, innovation, management, financial plan, outcomes, etc.).
- Step 4: Individual report submission by students.
- Step 5: Evaluation based on clarity, relevance, originality, and insight.

Impact and Outcomes:

1. Improved engagement and participation among students.
2. Better conceptual clarity on entrepreneurship development, project lifecycle, and risk handling.
3. Developed research, teamwork, and business communication skills.
4. Encouraged innovation, creativity, and application of managerial knowledge.

Advantages of the Initiative:

1. The process encouraged students to think like entrepreneurs and project managers, reinforcing theoretical learning with practical analysis.
2. romotes active learning and student ownership of learning.

3. Enhances employability and entrepreneurial thinking.
4. Encourages self-directed research and problem-solving.
5. Fosters peer-to-peer learning through presentations.
6. Builds confidence in understanding practical challenges faced by businesses.

NOTICE - Regarding TEC of EPM (8IT03)

Date: 05-04-2025

All students of class 4N are informed that, they are expected to submit a **Case Study Report** document as **TEC of EPM**. The hard-copy and soft-copy of the Case Study should be submitted **on or before 9th April 2025 by 4:00PM**. The soft-copy is expected to be submitted using the link that will be shared with students.

The case study must include the following points:

SN	Content
1	**Title of the Case Study**
2	**Background/Problem Statement**: Context and significance.
3	**Objectives of the Case Study**: Defined goals of the analysis.
4	**Theoretical Concepts Used**: Linkage with syllabus topics.
5	**Detailed Case Analysis**: Application and understanding.
6	**Findings / Observations**: Summary of key insights.
7	**Solutions / Suggestions**: Practical recommendations.
8	**Innovation or Entrepreneurial Insight**: Creativity, uniqueness.
9	**Conclusion**: Wrap-up and student's reflection.
10	**References**: sources.

The list of students along with the Titles of the Case Study Topics assigned to the students is mentioned below:

R.No.	Student Name	Title of Case Study
1	Ku. Ambika Patil	Bootstrapping vs VC Funding: Pros & Cons
2	Ku. Anushka Sontakke	Strategic Management in Reliance Jio's Launch
3	Ku. Apurva Masne	Lifecycle Analysis of an Event Management Startup
4	Ku. Bhakti Jasani	Role of Digital Marketing in Innovation-led Startups
5	Ku. Bhavika Jain	Business Model Innovation in Ola and Uber
6	Ku. Dipti Meghare	Analyzing the Entrepreneurial Traits of Elon Musk
7	Ku. Divya Thanvi	Making a Projected Income Statement for a Tiffin Service
8	Ku. Divya Hutke	Case Study on the Environmental Appraisal of Solar Startups
9	Ku. Gauri Sambare	Ideation to Execution: The Story of Zomato

74	Vivek Karale	Entrepreneurial Trends in the Post-COVID Era

Instructions for the formatting of case studies:

Page Setup

- **Paper Size:** A4
- **Margins:** 1 inch on all sides
- **Orientation:** Portrait
- **Line Spacing:** 1.15
- **Alignment:** Justified (except titles & headings)

Font & Text Style

- **Main Font:** Times New Roman
- **Font Size:**
  - Titles: 14 pt (Bold)
  - Headings: 12 pt (Bold)
  - Subheadings: 12 pt (Bold/Italic)
  - Body Text: 12 pt
- **Color:** Black only (unless diagrams/graphics)

Structure & Organization

1. **Cover Page** must include:
   - Title of the Case Study (Center Aligned, Bold, 16 pt)
   - Student Name & Roll Number
   - Subject Name: *Entrepreneurship And Project Management(8IT03)*
   - Class & Semester
   - Department & College Name
   - Submission Date
2. **Table of Contents**

Tables, Charts, and Diagrams

- Use relevant visuals wherever necessary
- All visuals must be **captioned** and referred to in the text
- Use **SmartArt** for processes and **tables** for comparisons/data

---

References & Citations

- Use consistent format (IEEE)
- Create a separate **References** section at the end
- Include links or sources for data, theories, or models used

---

Subject Teacher

Challenges and Recommendations

1. ***Challenges:***
   - Students initially faced difficulty selecting relevant and data-rich case studies and hence those are directly allocated.
   - Group discussion and work could not happen due to individual assignments.
   - Lack of access to authentic data in some cases.
   - Time management for students to balance coursework and case development.
2. ***Recommendations:***
   - Conduct a preliminary workshop on how to conduct case study analysis.
   - Share sample templates and examples of good case studies from previous years.
   - Allow optional industry mentor reyview for shortlisted case studies.

- Encourage interdisciplinary collaborations for richer content (e.g., E&TC students analyzing tech startups).
- Allocate separate marks for individual contribution in group submissions.
